Student Exam Module: API Reference

This document provides detailed JSON response structures for the student-side exam endpoints to assist in UI development.

1. Get Available Exams

Endpoint: `GET /student/exams/available` **Description:** Fetches the list of exams available to the student based on their preferences (Subject, Course, Exam Type).

Response Structure

```
[
  {
    "id": "exam-uuid-1",
    "name": "JAMB Mathematics Prep 2024",
    "description": "Full mock exam for 2024 JAMB prep",
    "startDate": "2024-01-01T08:00:00.000Z",
    "endDate": "2024-12-31T23:59:59.000Z",
    "durationMinutes": 60,
    "numQuestions": 40,
    "allowedAttempts": 2,
    "passingScore": 50,
    "examTypeEnum": "MOCK",
    "examTypeId": "type-uuid-math",
    "subjectId": "subject-uuid-math",
    "courseId": null,
    "status": "PUBLISHED",
    "examType": {
      "id": "type-uuid-math",
      "name": "JAMB",
      "category": "PRE_DEGREE"
    },
    "subject": {
      "id": "subject-uuid-math",
      "name": "Mathematics",
      "year": 2024
    },
    "_count": {
      "attempts": 0
    }
  },
  {
    "id": "exam-uuid-2",
    "name": "Algebra Practice Session",
    "examTypeEnum": "PRACTICE",
    ...
  }
]
```

2. Get Student Preferences

Endpoint: `GET /student/exams/preferences` **Description:** Fetches the student's selected subjects, courses, and exam category. Useful for showing "My Subjects" or "My Progress".

Response Structure

```
{
  "examTypeId": "type-uuid-1",
  "selectedSubjects": ["subj-uuid-1", "subj-uuid-2"],
  "selectedCourses": ["course-uuid-1"],
  "examCategory": "SECONDARY_SCHOOL",
  "examSubtype": "WAEC",
  "examTypeRecord": {
    "id": "type-uuid-1",
    "name": "WAEC"
  },
  "subjects": [
    { "id": "subj-uuid-1", "name": "Physics" },
    { "id": "subj-uuid-2", "name": "Chemistry" }
  ],
  "courses": [
    { "id": "course-uuid-1", "name": "Basic Science" }
  ]
}
```

3. Start Exam / Practice

Endpoint: `POST /student/exams/:id/start` OR `POST /student/exams/practice/start` **Description:** Initializes an exam attempt. Returns the attempt details and the full list of questions.

Response Structure

```
{
  "id": "attempt-uuid-1",
  "studentId": "student-uuid-1",
  "examId": "exam-uuid-1",
  "attemptNumber": 1,
  "status": "IN_PROGRESS",
  "startedAt": "2024-01-17T12:00:00.000Z",
  "exam": {
```

```

{id": "exam-uuid-1",
"name": "JAMB Mathematics Mock",
"durationMinutes": 60,
"numQuestions": 2,
"passingScore": 50,
"examTypeEnum": "MOCK",
"questions": [
  {
    "id": "eq-uuid-1",
    "order": 1,
    "question": {
      "id": "q-uuid-1",
      "questionNumber": 1,
      "questionType": "SINGLE_CHOICE",
      "questionText": { "blocks": [{ "text": "What is 2+2?" }] },
      "instruction": "Solve for x",
      "context": null,
      "options": [
        { "id": "opt-1", "text": "3" },
        { "id": "opt-2", "text": "4" },
        { "id": "opt-3", "text": "5" }
      ],
      "difficulty": "EASY",
      "marks": 1,
      "year": 2023
    }
  },
  ...
]
}

```

4. Exam History

Endpoint: `GET /student/exams/history` **Query Params:** `page`, `limit`, `examType`, `subjectId` **Description:** Retrives past completed exams with scores and status.

Response Structure

```

{
  "success": true,
  "data": {
    "items": [
      {
        "id": "attempt-uuid-old",
        "examId": "exam-uuid-1",
        "status": "COMPLETED",

```

```
"startedAt": "2024-01-10T10:00:00.000Z",
"submittedAt": "2024-01-10T10:45:00.000Z",
"totalScore": 35,
"percentage": 87.5,
"passed": true,
"exam": {
  "name": "JAMB Math Mock 1",
  "numQuestions": 40,
  "examTypeEnum": "MOCK",
  "subject": { "name": "Mathematics" }
}
},
"meta": {
  "total": 15,
  "page": 1,
  "limit": 10,
  "totalPages": 2
}
},
"timestamp": "2024-01-17T16:00:00.000Z"
}
```

5. Paused Exams (Practice Only)

Endpoint: `GET /student/exams/paused` **Description:** Fetches practice sessions that were paused and can be resumed.

Response Structure (Array of ExamAttempts)

```
[
  {
    "id": "attempt-uuid-paused",
    "status": "PAUSED",
    "exam": {
      "id": "exam-uuid-adhoc",
      "name": "Practice - 1/15/2024",
      "numQuestions": 20,
      "subject": { "name": "Biology" }
    },
    "_count": {
      "responses": 5
    }
  }
]
```

6. Get Exam Questions (Offline/Prefetch)

Endpoint: `GET /student/exams/:id/questions` **Description:** Fetches all questions for a specific exam in a flat list. Optimized for offline storage or prefetching before starting.

Response Structure

```
{
  "exam": {
    "id": "exam-uuid-1",
    "name": "JAMB Mathematics Prep 2024",
    "durationMinutes": 60,
    "numQuestions": 40
  },
  "questions": [
    {
      "id": "q-uuid-1",
      "questionNumber": 1,
      "questionType": "SINGLE_CHOICE",
      "questionText": { "blocks": [{ "text": "..."}] },
      "options": [...],
      ...
    },
    ...
  ]
}
```

7. List Tutorials

Endpoint: `GET /student/tutorials` **Query Params:** `subjectId`, `topicId`, `subTopicId`, `type` (TEXT_TUTORIAL | VIDEO_TUTORIAL), `page`, `limit`, `search`
Description: Fetches a paginated list of tutorials.

Response Structure

```
{
  "data": [
    {
```

```
    "id": "tut-uuid-1",
    "name": "Introduction to Calculus",
    "subjectId": "subj-uuid-math",
    "topicId": "topic-uuid-calc",
    "subTopicId": null,
    "type": "VIDEO_TUTORIAL",
    "chapterCount": 5,
    "subscriberCount": 120,
    "createdAt": "2024-01-15T10:00:00.000Z",
    "subject": { "name": "Mathematics" },
    "topic": { "name": "Calculus" },
    "subTopic": null
  }
],
"total": 1,
"page": 1,
"limit": 10,
"totalPages": 1
}
```

8. List Bookmarked Tutorials

Endpoint: `GET /student/tutorials/bookmarks` **Description:** Fetches all tutorials bookmarked by the student.

Response Structure

```
[
  {
    "id": "tut-uuid-1",
    "name": "Introduction to Calculus",
    "subjectId": "subj-uuid-math",
    "type": "VIDEO_TUTORIAL",
    "chapterCount": 5,
    "subject": { "name": "Mathematics" }
  },
  ...
]
```

9. Get Tutorial Details

Endpoint: `GET /student/tutorials/:id` **Description:** Fetches full details for a tutorial, including chapters and practice questions.

Response Structure (Video Tutorial)

```
{
  "id": "tut-uuid-video",
  "name": "Organic Chemistry Basics",
  "type": "VIDEO_TUTORIAL",
  "subjectId": "subj-chem",
  "tutorialVideos": [
    { "url": "https://...", "publicId": "v123", "type": "video" }
  ],
  "chapters": [
    {
      "id": "chap-1",
      "name": "Introduction",
      "order": 1,
      "content": { "blocks": [{ "text": "Watch this overview..." }] },
      "documents": []
    }
  ],
  "testQuestions": [...],
  "isBookmarked": false,
  "userProgress": {
    "lastWatchTime": 45,
    "lastChapterId": "chap-1",
    "testScore": null,
    "isCompleted": false
  }
}
```

Response Structure (Text Tutorial)

```
{
  "id": "tut-uuid-text",
  "name": "Nigerian History 101",
  "type": "TEXT_TUTORIAL",
  "chapters": [
    {
      "id": "chap-1",
      "name": "Pre-Colonial Era",
      "order": 1,
      "content": { "blocks": [{ "text": "Long ago..." }] },
      "documents": [
        { "url": "https://...", "type": "document", "format": "pdf" }
      ]
    }
  ]
}
```

```
],  
"testQuestions": [...],  
"isBookmarked": true,  
"userProgress": null  
}
```

10. Update Tutorial Progress

Endpoint: `PATCH /student/tutorials/:id/progress` **Body:**

```
{  
  "lastWatchTime": 120,  
  "lastChapterId": "chap-uuid-2",  
  "testScore": 85  
}
```

Description: Updates the student's progress in a tutorial.

Response Structure

```
{  
  "id": "progress-uuid",  
  "studentId": "student-uuid",  
  "tutorialId": "tut-uuid",  
  "isCompleted": false,  
  "lastWatchTime": 120,  
  "lastChapterId": "chap-uuid-2",  
  "testScore": 85,  
  "updatedAt": "2024-01-17T17:30:00.000Z"  
}
```

11. Submit Tutorial Quiz

Endpoint: `POST /student/tutorials/:id/submit-questions` **Body:**

```
{  
  "answers": [  

```

```
{ "questionId": "q1", "answer": "A" },  
  { "questionId": "q2", "answer": "true" }  
]  
}
```

Response Structure

```
{  
  "score": 100,  
  "correctCount": 2,  
  "totalCount": 2,  
  "xpEarned": 10  
}
```

12. Mark Tutorial as Complete

Endpoint: `POST /student/tutorials/:id/complete` **Description:** Finalizes a tutorial. Requires quiz completion if questions exist.

Response Structure

```
{  
  "id": "progress-uuid",  
  "isCompleted": true,  
  "lastWatchTime": 120,  
  "testScore": 100,  
  "updatedAt": "2024-01-17T17:00:00.000Z"  
}
```

13. Toggle Tutorial Bookmark

Endpoint: `POST /student/tutorials/:id/bookmark` **Description:** Adds or removes a tutorial from the student's bookmarks.

Response Structure

```
{
  "bookmarked": true
}
```
